Association for Community Health Improvement™

Join the premier national association for community health, community benefit, and healthy communities professionals.

ACHI is a reliable source for evidence-based information about best practices in community health.

—Tricia Isenock, MS, RNC, CHES,
Community Outreach Manager,
Franklin Square Hospital Center
Baltimore

I had a wonderful time at the conference, and brought back all sorts of useful community benefit information.

—Catherine Rees, MPH
Manager, Community Benefit
Middlesex Hospital
Middletown, Conn.

Mission

To advance healthy communities by providing our members education, professional development, resources and engagement opportunities in the fields of community health, population health, and community benefit.

We will cultivate a society of professionals who apply their specialized knowledge and expertise to effectively educate and collaborate with their communities in achieving the highest potential health for community residents.

Vision

Focus Areas

Community health:
Effective practices in community health assessment, prevention and wellness, chronic disease management, and access to care.

Community benefit:
Tools, strategies, and practices that support non-profit hospitals' special accountability to their communities.

Healthy communities:
Collaborative, multi-sector strategies that create the conditions for health where people live, work, and play.

Membership Benefits

Gain access to an unparalleled professional network and an array of educational opportunities, tools, and timely news.

Our members are engaged and capable professionals committed to gaining new knowledge and skills.

- Timely educational webinars (member free)
- Annual conference (member discount)
- Bi-weekly e-newsletter
- Member bulletins
- Professional peer interaction
- Affinity groups
- Exclusive member list serv
- Online social media groups
- Member-only website access to tools and resources
- ACHI Career Center job board
- Priority access to exclusive, practical research
- Volunteer leadership opportunities

Community health needs assessment and planning, preventive services, integrated care systems and public health approaches are vital to promoting health and wellness. ACHI highlights effective programs and practices you can use or adapt.

Key topics:

- Community health assessment
- Chronic disease prevention and management
- Access to care and coverage
- Disparities and equity
- Underserved populations
- Program evaluation
- Population health

Sustained health improvement requires influencing the community conditions that create or inhibit health. ACHI supports healthy communities professionals in their collaborative work to address social, economic, and environmental determinants of health.

Not-for-profit hospitals and health systems have a special accountability to their communities, and must anticipate and be responsive to changes in the rapidly evolving community benefit field.

ACHI is the largest membership network of community benefit professionals, and supports this membership segment with targeted programs and benefits.

Key topics:

- Community benefit
- Planning, budgeting and reporting
- Strategy linking community needs and organizational strengths
- Charity care policies
- Department staffing and operations

- » Chief population health officers
- » Vice presidents
